To all property owners in the Township of South Algonquin

The Township of South Algonquin is in the process of transitioning to a new accounting software.

This software is part of our efficiency review and once fully implemented will provide online tools for our residents as well as improve the efficiency of our staff.

Your tax bills will soon arrive in the mail. With your tax bill will be your pin number and directions on how to access services such as signing up for e-bill as well as self-serve options such as setting up monthly payments on your taxes, updating your mailing address, and printing copies of your tax bills for income tax purposes.

This web portal, once fully implemented in the fall will also provide you with a place to log issues such as trees on roads, blocked culverts, potholes etc., and provide a tracking mechanism for your issues as well as a location to submit building permit applications and planning applications.

Please wait until you receive your **pin number** with your tax bill to register on the web portal.

The web portal will be at <https://eservices.southalgonquin.ca/>

Bryan Martin, CMMIII
CAO/Clerk-Treasurer
Township of South Algonquin.
